

1 **WHAT IS CLAIMED IS:**

2 1. A tool coating with colored patterns comprising:

3 a tool coating foundation having a surface; and

4 at least one colored pattern layer being soft and pliable, attached to the
5 surface of the tool coating foundation and having:

6 a front;

7 a back;

8 a printed dye layer having a front and a back; and

9 an adhesive layer formed on the back of the printed dye layer to
10 attach to the surface of the tool coating foundation.

11 2. The tool coating with colored patterns as claimed in claim 1, further
12 comprising a transparent film applied to the at least one colored pattern layer to
13 keep the at least one colored pattern layer from being damaged.
